APA Reference Page (Works Cited) format

Each citation is reverse-indented
Citations are listed in alphabetical order
   This does not mean rearranging the order of authors in the citation.
   For example, “Miller” comes before “Neeleman” alphabetically:

Author(s) name(s)
   Last name, first and middle (if any) initials
   Multiple authors separated by commas
   Last author in a list preceded by an ampersand (&)

Year of publication
   In parentheses
   Followed by a period
   Do not include month or season – [needs clarification]

Name of article
   First letter capitalized
   First letter following a colon capitalized
   Formal names and acronyms capitalized
   All other letters lower-case
   Followed by a period

Name of journal
   Italicized
   First letter of every major word capitalized
   Followed by a comma

Number of volume
   Italicized
   Followed by a comma
   Do not include the letters “Vol.”

Pages
   The actual beginning and ending page numbers
   Followed by a period

For example:
